ABOUT US

Since 2012, our company has been conducting manufacturing operations in a 20,000 m² facility with extensive industry experience, utilizing state-of-the-art machinery and a fully automated system. Our production processes boast zero human error and are conducted using 100% original raw materials.

OUR QUALITY POLICY

Our quality policy aims to enhance service quality and understanding by utilizing Occupational Health and Safety (OHS) and quality management systems. We ensure consistent quality production by employing the latest technological machines and equipment.

HEALTH AND SAFETY POLICY

With zero errors and zero workplace accidents, GM Pipe prioritizes the well-being of our employees. We engage in regular consultations with our staff to meet their needs and maintain their health and safety. Our company adheres to health and safety regulations to provide a secure and healthy environment for all employees, ensuring timely maintenance to prevent any accidents or incidents.

u- PVC Sewage Pipes

U- PVC Sewage Pipes

U-PVC SEWAGE PIPES TYPE-1 - 3,2mm

THE ADVANTAGES OF U-PVC SEWAGE PIPES

- Easy installation and handling.
- Light weight.
- Smooth surface and gloss.
- High impact resistance.
- Low pressure loss.
- Long service time.
- More color options.
